

**DECLARATION UNDER 37 CFR 1.68**

I, Giovanna Luisa Sarolo, declare

That I reside at Via Podgora 6, Milan, Italy;

That I am familiar with the Italian and English languages;

That I am a Sworn Translator, appointed by the Court of Milan, Italy;

That I have prepared the attached translation of the Italian Patent Application No. **MI2002A002595** filed on **6 December 2002** with the title: "Fabric with a base of non-woven fabric strips", said Italian language document being already filed at WIPO during the PCT procedure.

That the attached translation is complete and accurate and fairly reflects the meaning and content of said Italian language document.

I further declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true and further that these statements were made with the knowledge that wilful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such wilful false statements may jeopardize the validity of the application or any patent issued thereon.

D. TITLE

FABRIC WITH A BASE OF NON-WOVEN FABRIC STRIPS

L. ABSTRACT

A textile product is described which is composed of a weft and a warp, in which the weft and/or the warp are composed of strips of non-woven fabric. This product is applied in the production of cloths for cleaning floors, dusters, napkins, bedspreads, couch covers, cushion covers, car seat covers, doormats, etc. The strips of non-woven fabric are preferably composed of hydroentangled or thermo-bonded fibres, and with a base of materials such as viscose, polyethylene, polypropylene, polyamide, cellulose pulp. The invention also includes mixed textile products, in which non-woven products are combined with materials other than non-woven such as wool, silk, synthetic fibres, etc. This method is advantageously, though not exclusively, suited for recycling even waste materials derived from the processing of non-woven fabric.
